Hill and Dale Club Plans Fashion Show At Cerrito City Club

Truly Rembrandt, will be the illusion created as Hill and Dale Women's Club presents "Spring Portraits" at the Cerrito City Club, Friday, March 6, 8 p.m. Done in three dimensional form, an array of hues and colors will be all ready for the Easter parade of spring fashions.

Life sized portraits will come alive — as the model in the picture (frame) steps into character, dressed for church on Easter morning, or a fashionable springtime tea. A huge gilt edged scroll frame has been built, with special ramps, effective lighting, etc. A three dimensional background effect in pastel shades has been worked out. True to fine art showings, before the model steps into character, the commentator will relate a bit about the picture, the model's name, her hobbies, etc.

To carry out the theme "Spring Portraits", standing gilt edged oval scroll frames, portraying on each side a floral picture on pastel background is being used for centerpieces. For table favors an old fashioned nosegay — made from lace doilies over silver foil and centered with colored candy gum drops — will be a spring time bouquet.

An artist palette, splashed with drops of pastel paint and bright colored buttons, will make up the printed program.

BERKELEY AGREES TO ALBANY DUMP DEAL

The Albany City Council passed a motion Monday night authorizing Mayor Lewis M. Howell to sign a contract with the City of Berkeley whereby that city's huge dump will be made available to Albany citizens, effective March 1 next. The motion was made subject to approval of the proposed contract at Tuesday night's meeting of the Berkeley council, and this approval was granted.

Terms of the contract, which was negotiated by Councilman Jerome Blank, calls for payment to the City of Berkeley of the sum of \$5,000 yearly, payable monthly in advance by the City of Albany, plus similar charges per car or truck to those required the last several years of private operation of the Albany dump. The contract is for one year, renewable from year-to-year, and is cancellable on 30 days written notice by either party.

The City of Berkeley is spending some \$180,000 at the present time in extending its dump facilities, and plans further extensions and improvements designed to provide for its use for many years.

The motion authorizing the Mayor to sign the contract was presented by Councilman Blank, seconded by Councilman Keck, and passed by a vote of 3 to 1. Mrs. Zahn, who objected to the required payment of dumping fees, and to the \$5,000 a year rental charge, voting "No."

In a preliminary presentation of the proposed contract for use of the Berkeley dump, Councilman Blank outlined the various plans which had been considered by the Albany City Council in an effort to solve the problem of the forced closing of Albany's dump on October 1, 1957, on order of the government engineers, together with the Smog control ruling against all dump burning.

"Prior to 1950," declared Blank, "the city operated a dump at the end of Buchanan Street, projecting out into the Bay, as a regular city departmental function. The city employed a full-time dump employee, plus a part-time employee, and all dumping fees were paid into the city treasury. Since waste materials were being dumped into the Bay the city had to install piling to retain the materials. Compaction of the waste was effected by the burning of all combustibles, which were then shoved into the water. Annual cost of this operation in the fiscal year of 1949-50 was \$8,678.27.

"In 1950," continued Blank, "the council entered into a contract with a private dump operator, after public bidding, who paid the city \$110 per month for the franchise. The operator was allowed to operate and maintain the dump, collect fees from commercial dumping, but the citizens of Albany were allowed to dump free. This reduced the cost of the dump to the city to approximately \$2,000 per year in subsequent years.

"This operation proved very successful until 1957 when the city was served with notice by the Bay Area Air Pollution District that no more open burning in dumps would be allowed. The city council studied various methods of continuing the dump in some form which involved no burning, and these included:

"(1) To allow Albany citizens to dump on dumpsite, then transship waste to the nearest cut and fill dump.

"(2) To allow Oakland Scavenger Co. to pick up waste directly at homes or business, and charge owners accordingly. Under this method the dump would be completely closed down.

"(3) To allow dumping at dumpsite, with barges to transship to a site outside the city.

"(4) To operate a dump on site, with clean, dry fill used to cover up the waste materials."

Mr. Blank outlined in detail the conclusions reached in each of the proposed methods. He showed that the various plans proposed would cost the city from \$25,000 to \$90,000 to begin with, and that facilities provided at this high cost would not be permanent, but

(Continued on Page 2)

Berkeley Agrees To Albany Dump Deal

(Continued from Page 1)
that extension of the dump as it became filled within a period of from 8 to 10 months would require further huge expenditures. It had been hoped that the fill-in could be extended out to property the city has under lease from the State, but investigation showed that terms of the State lease

would not permit dumping. Expert engineers were consulted and numerous studies made but all had to be given up because of the cost. Fees to be charged Albany residents for dumping at the Berkeley dump are to be as follows: 50 cents per automobile; 50 cents to one dollar for station

wagons, panel trucks, pickup trucks and trailers, depending on size of load; commercial establishments pay the same rates per truck as Berkeley trucks; all City of Albany trash from the Street and Park Departments will be dumped free.

The dump is off the Eastshore Highway one-half mile south of the Albany City Limits and will save the city departments some \$3,000 a year over the cost of hauling to North Richmond dump. The \$5,000 yearly payment is included in the present city budget, and no tax raise is necessary.

Mr. Blank further explained that the cost to Albany citizens is as low as at the old Albany dump, and one-half the cost of the Richmond dump, besides the saving in time.

Custom Leather Shop Opens Here
 Red Schneidau, noted local leather craftsman, has opened a custom carving and designing Art Shop at 1412 Solano Avenue. Albany. The shop features artistic and practical goods of fine leathers and expert craftsmanship. Everything from leather covered dice cups to hand tooled chess sets and confined to a wheel chair.

As the only wheelchair member of a San Fernando Valley archery team, Red distinguished himself and won many medals. He also toured the country with the Flying Wheels of Southern California, a wheel chair basketball team.
 In 1950 Red went to work for an aircraft plant in Culver City doing wire designing for radar. Then in 1952, Red and his wife Hannelotte moved to El Cerrito where he started leather working in his home. He has completed over 10,000 custom leather items ranging in size from a leather star rug, measuring ten feet from point to point, down to tiny leather ear-rings.

CHRISTIAN SCIENCE
Value for today's world of words and words of Christ will be brought out at Christian Science services Sunday. Lesson-Sermon is entitled "Jesus." Scriptural selections will include Jesus' reply to messengers of John the Baptist (Luke 7:27): "Go your way and tell John what things ye have seen and heard; how the blind see, the lame walk, the deaf are cleansed, the dead are raised, to the gospel is preached."

Correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (131: 26-30): "The mission of Jesus confirmed prophecy, and explained the so-called miracles of olden times as natural demonstrations of the divine power, demonstrations which were not understood. Jesus' works established his claim to the Messiahship."

The Golden Text is from John (1:17): "The law was given by Moses, but grace and truth came by Jesus Christ."

Christian Science Society of Albany meets at 533 San Pablo Avenue, Sunday Morning Services are held at 11 a.m. and Wednesday Evening Meetings are held at 8 p.m. The Sunday School convenes every Sunday at 9:30 a.m.

music, and Mrs. Lucina Wyckoff will sing a solo.

The Sunday School convenes at 9:45 a.m. with classes for all ages and with competent teachers. Wednesday evening at 7:30 p.m. is our service of prayer, meditation and Bible study.

GRACE LUTHERAN

At Grace Lutheran Church, Santa Fe Avenue at Ward, the Rev. O. R. Janke, pastor, will speak in both the 9:45 a.m. and 11 a.m. services next Sunday on the topic, "The Discipline of Distress." This will be the third in a series of sermons on the Old Testament Book of Jonah. The lesson topic for the graded classes of the Sunday school meeting at 9:45 a.m. will be,

Notes From The Albany Library

Catholic Book Week is being celebrated throughout the nation from February 22 to February 28.

The Albany Library has on its shelves many books that are of especial interest to Catholics — some of which are listed below.

O'Brien, Kate, "As Music and

Splendor" — A novel which tells the story of two young girls, and the fatal gift which destined them to lives far from the country in which they were born, and the beliefs they were taught.

Silone, Ignazio, "The Secret of Luca" — A powerful, ironic, yet tender story of human suffering, and the fallibility of justice.

Dever, Joseph, "Three Priests" — A modern novel of unstudied realism that reflects the manner in which the author sees the world around him, and of the priests who went their separate ways.

Begler, "Divorce Won't Keep" — Drawing on his experiences in treating many patients in unhappy marriages a psychoanalyst explains why divorce is seldom a solution.

O'Neill, James, "Catholicism and American Freedom" — Measures the Catholic Church within the framework of American Democracy.

Reference books include: Dictionary of Saints and Book of Catholic Quotations — the first and only compendium from exclusively Catholic sources — classified by subject and author for easy reference.

Putting telephone know-how to work for national defense

New phone network adds lightning punch to the nation's defenses

Phone lines today are speeding up the nation's air defense by making it act almost automatically. The lines are nerves of a new system called SAGE. With faster speed than ever, these lines flash signals from wide-spread radar outposts into SAGE control centers. There, the signals feed into computers that instantly tell Air Force men what's in the

air and where it is. Then, in a fraction of the time it once took, the men can use SAGE's phone lines to order jet aircraft or missiles skyward. Telephone people are fast completing SAGE's nerve system as part of our role in National Defense. And we'll watch over it with care — watch to see that it's always working for your safety and security.

Working together to serve you better...
